

OUR MISSION

In 2009, The Alexandria FGA provincial library came into being as a way to aid in the implementation of the new programs of study. As an extension of that mandate and under Alexandria's supervision, The Regard Team was created to further support and guide teachers and pedagogical consultants in understanding how a competency is developed.

The training services offered by The Regard Team are generously made available through financial considerations by the ministère de l'Éducation et de l'Enseignement Supérieur (MEES).
